INTERNSHIP

Websoft Technologies
Web Designer
Feb 2024-Mar 2024

Completed an internship where I gained practical experience in SEO, enhancing content visibility, and created engaging visuals using Canva. Also developed skills in photo and video editing to support digital marketing efforts.

PROJECTS

Online Salon Booking System
May, 2024 - July, 2024

Developed an online salon booking system allowing users to book appointments at nearby salons. Utilized HTML, CSS, and JavaScript for a responsive and user-friendly frontend, while implementing MySQL and PHP for backend database management and functionality.

Data Analysis on Electric Car Dataset
Nov, 2023 - Jan, 2024

Conducted a data analysis project on an electric car dataset from Kaggle, using Microsoft Excel formulas to categorize cars based on price, body styles, number of seats, powertrains, and number of cars sold. Leveraged Power BI for data visualization, creating insightful dashboards to highlight key trends and patterns.
